PROFESSIONAL SUMMARY

Payroll Operations Specialist with hands-on experience running end-to-end payroll for multiple clients within a PEO / payroll outsourcing environment, including headcounts of up to 1,000 employees. Skilled in salary computation, tax-on-tax calculation, and PIT/SSB compliance across a range of client industries — exposure that translates directly into salary structure comparison and pay benchmarking across sectors. Comfortable liaising with Labour Office, Tax Office, and SSB officers, and coordinating with finance and client teams on invoicing and payroll data accuracy. Looking to grow into compensation & benefits work that builds on this payroll and multi-client benchmarking foundation.

CORE STRENGTHS

- Government & stakeholder liaison — Labour Office, Tax Office, SSB, finance teams
- Payroll reporting & data accuracy — monthly reports, discrepancy tracking, audit-ready documentation
- Advanced Excel for payroll and comp data management
- Client coordination in a fast-paced, multi-account PEO environment
